## **Communication No. 05** **Notification to Preliminary and Elementary Divisions**

Dear Participants,

Notification to all skaters in the Preliminary and Elementary division, the element that is listed as Choreographic Sequence and Step Sequence will be evaluated as a Choreographic Sequence as defined in ISU Rule 612 and judged in GOE Only and will receive the abbreviation of ChSq for both Ladies and Men.

ISU Rule 612 – definition of a Choreographic Sequence

A Choreographic Sequence consists of any kind of movements like steps, turns, spirals, arabesques, spread eagles, Ina Bauers, hydroblading, any jumps with maximum of 2 revolutions, spins, etc. Listed elements included in the Choreographic Sequence will not be called and will not occupy a box. The pattern is not restricted, but the sequence must be clearly visible.

The Technical Panel identifies the Choreographic Sequence, which commences with the first skating movement and is concluded with the preparation to the next element (if the Choreographic Sequence is not the last element of the program). It can be performed before or after the Step Sequence. This element has a fixed base value and will be evaluated by the judges in GOE only.

Thank you and we apologize for any inconvenience caused.
