

# SISA SNFSC 2017

## **Communication No. 06** **Clarifications for Future Stars Category**

The skater must demonstrate the required elements and may use connecting elements from Skate Star Curriculum Figure Blade 1 through Figure Blade 4 and Field Moves 1 (with the exception of the Back Spin not allowed from Figure Blade 4).

Note: The Grab Spiral is listed in Field Moves 1; however, the skater needs to demonstrate a basic spiral with the free leg at least as high as the skating hip as described in the Skate Star curriculum (Field Moves 1) in order to receive credit for the required element.

Variations such as a Grab Spiral, Catch-Foot, "Y" or Biellman spiral can be performed as an enhanced feature.

Jump Elements: There are to be no other jump elements performed from Skate Star Curriculum Jump 1 and Jump 2 other than what are listed as the required jump elements (Waltz Jump and Salchow).

Bunny hops are from Figure Blades 1, so are acceptable.

One-Foot Spin: Free leg position can be optional, but is listed in the Skate Star Curriculum as "the skater must maintain a controlled upright posture and have the free-leg held up and next to the spinning leg".

Future Stars will not be judged with IJS levels if a skater is doing a variation. The skater is to show the basics for the required spin and that is 3 full rotations.

Thank you.
