

**Communication No: 179**

**SISA STATEMENT**

*"JCube set to make way for mixed-use residential development"*

Dear Members

We refer to the Straits Times article, "JCube set to make way for mixed-use residential development," dated 29 July 2022.

2 We have been informed that plans with Capitaland have not been finalized. Until then, the mall and the rink will operate as usual.

In the meantime, we would like to assure the ice skating community that we are in active discussions with Sport Singapore on the options available for SISA to maintain ice skating activities in Singapore.

3 We would update the community with more concrete information as soon as we are able to and, in consultation with Sport Singapore. As for your questions on training schedules, these would be addressed at a Townhall session we would organise sometime in September 2022, by which time we may have more concrete information from Sport Singapore and relevant parties.

Thank you.

Executive Committee  
Singapore Ice Skating Association
