

**Communication No: 196**

**UPDATE ON NEW RINK AND ICE TIME OPPORTUNITIES**

After several months of discussions and negotiations, we would like to update the community on the development of the new rink and training opportunities in Singapore.

**Kallang Ice World**

The booking and use of the Kallang Ice World Rink for our Figure Skating members will commence in April 2024 after the March 2024 school holidays. A delay due to their maintenance works and agreement paperwork.

**New Rink @ Pandan Garden (PG)**

As for the development of the Pandan Garden (PG) rink, the investor, Sport Singapore and SISA has managed to secure the land tenure of beyond 10 years (as compared to the original 3+3+3).

For the extended tenure to happen, Sport Singapore will be required to acquire the land and modify the development use back to sports. This will be done through a land alienation process. SLA will require 12 months to approve the amendment. So, in effect, we will only be able to start construction from March 2025. Construction will take an estimate of 18 – 20mths.

**Temporary Ice Rink**

In the meantime, SISA is also working with another operator for a short-term ice use, in Singapore – we hope to be able to update the community on this by October 2024.

Thank you for your kind attention.

SISA Board
